Two-month deadline to handover wildlife artefacts to Govt.

No clarity on ancestral wildlife artefacts

Forest officials to discuss deadline implementation process

Mysuru, Nov. 2 (MTY&KS)- Following the two-month deadline given by Forest Minister Eshwar Khandre to those possessing wildlife artefacts to handover the same to the Government, a meeting of Forest Department officials chaired by the Principal Chief Conservator of Forests (PCCF-Wildlife) to discuss about the process of implementing the two-month deadline order will be held in Bengaluru this week, according to sources.

Sources also said that Chief Conservators of Forests, Conservators of Forests (CFs), Deputy Conservators of Forests of Forest Mobile Squads of all Circles across the State will take part in the meeting.

In case the meeting is not held, the PCCF and APCCF will hold an internal meeting and the deliberations of the meeting will be brought to the notice of the Forest Minister. Instructions will be given to all CFs and DCFs about the implementation process.

MLA's statement

Meanwhile, CF of Mysuru Circle Dr. Malathi Priya, speaking to *Star of Mysore* said that Virajpet MLA and Chief Minister's Legal Adviser A.S. Ponnanna has stated that possessing wildlife artefacts with ancestral history should not be an offence and added that a discussion with senior officials will be held to know whether ancestral wildlife artefacts would come under the two-month deadline and those keeping such artefacts should handover them to the Government or not.

It is only after holding the discussions, a correct picture will be known, she said and added that the deadline order had not reached their Office.

MLA Ponnanna had stated that there were traditional knives (Peeche Kathi) made from elephant tusks, antlers and peacock feathers kept in Kodagu traditional houses (Ain Mane) and other places which were passed on from generation-to-generation and had questioned whether it was right and possible to arrest everyone for possessing such wildlife artefacts. He had clarified that possessing wildlife items with ancestral history should not pose problems.

EDITOR'S BOTTOMLINE

Over the last few years in this country, everything has been big and grand. Cities are big, infrastructure is big and development is big. And yet, amidst all this progress, so much seems to be falling by the wayside. The reality is that, despite the extensive urbanisation, over 60% of our population still resides in rural areas and may actually prefer their rural lives, provided they have improved living conditions.

Despite the immense push for infrastructural development, there are adverse consequences, particularly for the larger, often overlooked, rural populations and the country's ecology. Development has brought a new set of vulnerabilities to rural areas. Land acquisition is primarily directed at urbanisation, real estate development, industrialisation, mining, roads and other infrastructural projects. Even in some of the world's last pristine wilderness areas, roads are being constructed, despite evidence that they lead to activities that directly impact land use, forest cover and particular species and contribute to large-scale environmental degradation. This degradation disproportionately affects impoverished communities with minimal infrastructure and services.

Focusing on small, low-cost, community-centred approaches to increased and sustained mobility such as footbridges, trail bridges and pedestrian bridges as critical rural infrastructure may address the complexity associated between political frameworks, ecological experts, and infrastructure planners and effectively manage the trade-offs. Additionally, in many countries, smaller infrastructure has enabled gender mainstreaming, especially in areas where female vehicle ownership is not socially and culturally acceptable.

A more micro-oriented approach to infrastructure development forgoes the 'big infrastructure' advice given by development agencies and governments. It means more farm-to-market roads, fewer super highways, more basic irrigation, fewer mega dams and less big infrastructure. It may be less impressive but demonstrates more participatory and longer-term impacts based on inclusive growth.

People in Spider-Man costumes

Argentina: An estimated 2,000 people in Spider-Man costumes gathered in Argentina in an attempt to break a Guinness World Record.

Influencer Uki Deane, who organised the event on social media, said he believes the number of people in Spider-Man costumes at the Obelisk in Buenos Aires may have reached 3,000 at one point, but there weren't enough notaries to count all the participants.

The gathering aimed to break the Guinness World Record for the largest gathering of people dressed as Spider-Man, which was set at 685 in Malaysia in June of this year.

Deane said participants filled a truck with non-perishable food to be donated to a local charity. Evidence from the record attempt must still be reviewed by Guinness World Records.

REALLY...?

- ***Bats are the only flying mammal. While the flying squirrel can only glide for short distances, bats are true fliers. A bat's wing resembles a modified human hand — imagine the skin between your fingers larger, thinner and stretched. This flexible skin membrane that extends between each long finger bone and many movable joints make bats agile fliers.***

VOICE OF THE READER

Bishan Singh Bedi: A humble tribute

Sir,

The entire cricketing fraternity of the world plunged into deep sorrow on hearing the sad demise of legendary cricketer Bishan Singh Bedi on Oct.23.

Bedi was one of the quartets, besides E.A.S. Prasanna, B.S. Chandrasekhar and S. Venkataraghavan, that India has ever produced and has been widely acknowledged as the ever-time greats of Indian cricket.

Bedi was an effective slow left arm orthodox spin bowler and mesmerised world's top class batsmen through his flighted delivery and bagged their wickets. Thus, Bedi has contributed his mite to the Indian cricket.

Bishan Singh Bedi captained the Indian team in 22 Test matches. He encouraged and motivated young cricketers to perform well in the National and International cricket. A perfect disciplinarian on and off the field, Bedi at the same time was a very nice human being too.

He has also bagged the prestigious *Padma Shree* award in 1970, won C.K. Naidu's Lifetime Achievement Award in 2004.

It is really unfortunate that the 'Sardar of Cricket, joined the Great majority.' Perhaps, Bedi may not be with us today but his ideals and remarkable performances remain evergreen in the hearts of millions of cricket fans. May Mr. Bishan Singh Bedi's noble soul rest in peace.

Mysuru, Nov. 2 (BLU&BS)- Social Welfare and District Incharge Minister Dr. H.C. Mahadevappa said: "Kannada land and language has a rich history spanning 2,000 years as is evident with several historical inscriptions to corroborate the fact that it was spoken by people during those times."

Ambaari bus ride a super hit

(Continued from page 1)

But from Oct. 25, the services saw a severe drop in the demand for lower decks, while the upper deck witnessed cent percent occupancy till yesterday (Nov.1).

Out of 6 'Ambaari' buses, one bus was sent to Gadag on Oct. 30 and another one will be sent to the same place after Nov. 5, as Dasara illumination is scheduled to end on Nov. 5 (The District In-charge Minister has given oral instruction for continuation of illumination till Nov. 5, though CESC has previously informed that the illumination will conclude on Nov. 3).

Sources further said that after Nov. 5, one 'Ambaari' bus will be stationed at the Palace main entrance gate (Varaha Gate) for city rounds while the remaining buses will be handed over to KSRTC. The fare will be restored to normal fares at Rs. 250 per head for both the decks.

Meanwhile, buoyed by the huge success of 'Ambaari' service in city, the KSTDC is planning to launch similar service in Kodagu, Hassan, Mandya and Chamarajanagar districts, to provide an opportunity for the tourists to visit tourist spots in the bus within those districts.

Besides, the KSTDC will be carrying out a survey soon to determine the viability and feasibility of Ambaari service in these districts.

The bus schedule in Mysuru includes three trips daily, commencing at 6.30 pm, 8.30 pm and 9.30 pm. About 45 passengers can travel in one bus and all six buses carry 270 passengers on each trip. So a total of 1,620 passengers get to enjoy the illuminated city till Nov.5 (Sunday).

All tickets can be booked online at *https://www.kstdc.co/*, and children above the age of five are required to purchase full-price tickets.

Bengaluru, Nov.2 (DM)- Sri Ganapathy Sachchidananda Swamiji of Avadhoota Datta Peetha, Mysuru, was conferred the Honorary Doctorate degree of Mysuru-based Karnataka State Dr. Gangubai Hanagal Music and Performing Arts University at a simple ceremony held at Raj Bhavan in Bengaluru on Tuesday evening.

The Swamiji could not attend the 6th Convocation of the Music Varsity in city on Oct. 18 to receive the honour and hence the ceremony in Bengaluru.

Speaking after conferring the award, Governor Thaawarchand Gehlot, who is the Chancellor of all State-run Universities, said that the Indian culture embodies Knowledge, Science, Arts and Music. He said the Music Varsity, which has been named after renowned musician of the State Dr. Gangubai Hangal, is doing a good job of carrying forward the rich musical legacy left behind by the great Musician.

"The Music Varsity has identified and honoured eminent personalities who have done yeoman service in the fields of Education, Art, Music and Literature, with Hon. Doctorates since its formation. Likewise, the University has chosen to honour Sri Ganapathy Swamiji, who has contributed to the field of Music, this year," he said.

Stating that earlier, Ballari-based Sri Krishnadevaraya University too has honoured Sri Swamiji with Honorary Doctorate, Gehlot said that the Swamiji's contribution has spread far and wide, with London-based World Classical Tamil University conferring the Doctorate on the Seer a couple of years ago.

Pointing out that the Seer has established many institutions of repute across the country and world, he said the Swamiji has come up with several innovative programmes and plans.

"Ganapathy Swamiji has stressed on the need for promoting Music Therapy as music coupled with meditation soothes the mind and the body. The Seer is also propagating the richness of ancient Vedic practices. The Datta Peetha in Mysuru today is an important centre of Vedic Studies. The Swamiji is also working for the cause of nature conservation, water sources, rivers and caring for birds. The Shuka Vana in the Ashram premises is an example for this. I pray that the Swamiji's services to society continues for years to come," Governor said.

Pointing out that Patel's life and contributions are an inspiration for the current generation, he wished the people on the occasion. Music Varsity Vice-Chancellor Prof. Nagesh V. Organ donation saves four lives

Mysuru, Nov. 2- Forty-year-old K.K. Rajesh, hailing from Akki Hebbal Hobli in K.R. Pet Taluk, was brought to Apollo BGS Hospitals, Mysuru, on Oct.25 after his bike met with accident with another bike at 3rd Cross, 3rd Main Road, near LIC, Sharadadevinagar in city.

Rajesh was kept on life support for two days while he was in a very critical state. On Oct.27, he was declared brain dead due to brain stem failure, as per the hospital protocol stipulated by the Transplant of Human Organs Act 1994 by panellist doctors at Apollo BGS Hospitals.

Rajesh was healthy before this incident and further tests confirmed his eligibility for organ donation. His family was counselled for organ donation as per the defined protocol. Rajesh's family came forward to donate his organs which saved four lives.

As per organ donation protocols, officials from Jeeva Sarthakathe, which was earlier known as ZCCK, initiated the process by the organ recipients' waiting list. At around 11 am on Oct.27, Rajesh's organs (2 Kidneys, 1 Liver, Corneas and Heart Valves) were harvested and a cross-clamp was done at 10.15 am at Apollo BGS Hospitals, Mysuru.

A single organ donor can save up to eight lives, while a single tissue donor can improve the lives of up to 50 people. The heart, liver, kidneys, lungs, pancreas and intestines are all organs that can be donated.

K.K. Rajesh

Under the direction of Zonal Coordination Committee of Karnataka (ZCCK) for Transplantation, 899 multi-organ donations and 2,352 tissue donations have been made in Karnataka since 2007. In Karnataka, the entire transplantation process is overseen by ZCCK.

Apollo BGS Hospitals is the Licensed Centre for Multiorgan Transplants in Mysuru, which is now recognised as the 5th Zone for Organ Transplants under SOTTO, Karnataka. To facilitate the crossmatch facility for Organ Transplants in this region, SOTTO has signed an MoU with Apollo BGS Hospitals, under which all cross-matching of transplant patients will be henceforth undertaken at Apollo BGS Hospitals, Mysuru, saving the travel time to Bengaluru, which is crucial during the Organ Transplantation.

Apollo BGS Hospitals has thanked the family of the deceased for coming forward for this noble cause of organ donation.

The organs donated are as follows:

Sl. No.	Organs Donated	Recipient Hospital
1.	Liver	Apollo BGS Hospitals, Mysuru
2.	Corneas	K.R. Hospital, Mysuru
3.	Heart Valves	Narayana Hrudayalaya, Bengaluru

WORD OF THE DAY

Foliage

Pronunciation: FOH-lee-ij.
Meaning: Foliage refers to the leaves of a plant or of many plants.
Origin: Whether you're a casual leaf peeper or a card-carrying botanist, a staunch New Englander or Caribbean beach bum, there's plenty to love about foliage—though the pronunciation of foliage has long been a point of contention among English speakers. Most commonly accepted is the trisyllabic \FOH-lee-ij\. However, there's no denying that the pronunciations \FOH-lij\ and even \FOY-lij\ have also staked their claim. The first of these disputed pronunciations is consistent with the pronunciation of the -iage ending in marriage and carriage. The second is often more fiercely denounced, in part because of its association with the nonstandard spelling foilage. But there's redemption for this estranged pronunciation: foliage traces back to Middle French foille ("leaf"), which is also the source of the English word foil (as in "aluminum foil"). When adopted by Middle English speakers, foil originally meant "leaf." Love it or leaf it, there's just no taking the "foil" out of foliage.
Example: "Summer hiking is undeniably breathtaking, but there's something about the foliage of the fall that secures its spot as the best time of year to get outside and enjoy the beauty of nature." — Merrell Readman, Travel + Leisure, 25 Aug. 2023

THE ODD WORD

Falcate

Resembling a sickle.

PHRASE OF THE DAY

Field day

Meaning: The phrase 'Field day' is used to describe a circumstance in which excitement and fun prevails.
Origin: The origin of the term 'Field day' comes from the military and refers to manoeuvres that took place in a field, but by the 1800s, the phrase was used to refer to any event that happened in a field, ranging from a hunt to a dance to a picnic to a scientific expedition.
Example: "The boys had quite a field day at the water park."

QUOTE BOX
